May 17, 2011

Citation:

Author Affiliation: University of Birmingham

University Website: http://www.ptr.bham.ac.uk/staff/bortolotti.shtml

Personal Website: http://www.lisabortolotti.com

About the author and her publications:

Lisa Bortolotti joined the department of Philosophy at the University of Birmingham in 2005 and has since earned the title Senior Lecturer. Professor Bortolotti has published four books including Introduction to the Philosophy of Science, Philosophy and Happiness, Psychiatry as Cognitive Neuroscience: Philosophical Perspectives, and Delusions and Other Irrational Beliefs. Additionally, she has a more recent book entitled Irrationality that is under contract. Professor Bortolotti has published fifty-five peer-reviewed journal articles. Sixteen of these articles are highlighted on her University webpage, and there is a link to Academia.edu for abstracts of the rest of her articles.

While there are no links to full text articles through Lisa Bortolotti’s University website, her personal website has links to many of her full text scholarly articles, made available through Academia.edu.

I was able to discover the University of Birmingham’s’ institutional repository, UBIRA, fairly easily by searching the terms “institutional repository” on the University's homepage. However, on the Library Services home page, there was no mention of or links to the institutional repository. There were no results for “Bortolotti” in UBIRA.
